

Today's Peak Alert Warning - 3 to 6 p.m.

We expect a high demand for the use of electricity today. Please limit the use of major appliances and hot water. Raise your air conditioning temperature to a level that is still comfortable for you. Other ways to help limit electricity use during this timeframe includes:

- Avoid using your oven. Instead use your outdoor grill or microwave.
- Set timers for appliances such as dishwashers and washing machines so they cycle after the peak hours.
- Use a clothesline for drying clothes.
- Turn off all unnecessary lights.

We appreciate your patience and cooperation. Your help with energy efficiency now can result in savings for you later.
