Residential Electric Outdoor Equipment

What tools are better for the environment, requires no fuel or additives and very little maintenance? You guessed it, electric outdoor tools. Electric outdoor tools have been proven to reduce carbon footprint and keep the air we breathe free from emissions. Electric outdoor equipment also has fewer moving parts than gas-powered equipment which helps it weigh less with less maintenance. With the advances in lithium-ion battery technology, electric outdoor equipment can run longer and stronger than years before.

Whitewater Valley REMC is offering its residential member-consumers the opportunity to apply for an electric outdoor equipment incentive. Products include: electric lawnmowers, leaf blowers, trimmers, chain saws, snowblowers, rototillers and power washers. Where you choose to buy your equipment and the brand you choose is up to you.

Simply fill out an application and submit with your receipt to take advantage of:

- 50% off UP TO \$50 on hand-held and push type equipment
- 50% off UP TO \$150 on riding equipment
